Donut chart– highlights

1 Flexible colors

Apply conditional formatting or custom color palettes

2 Series management

Focus: display only the top N segments

3 Multiple cards

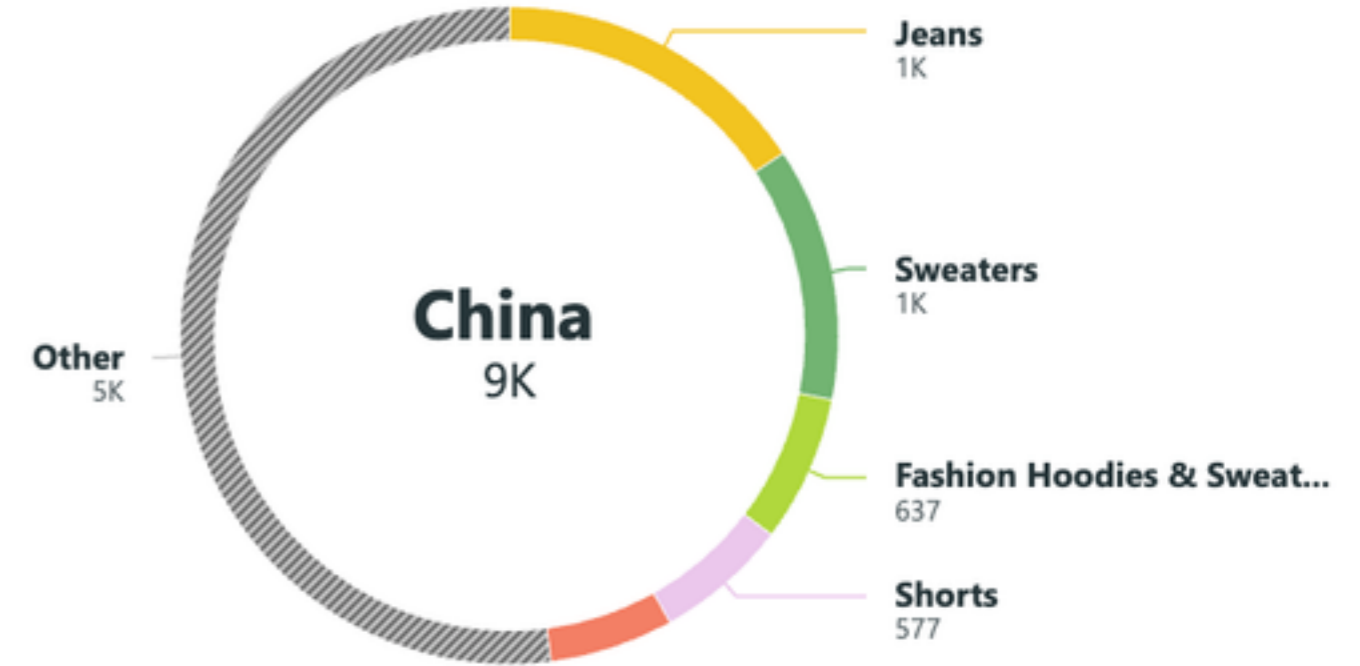

Render multiple line graphs in a single visual

4 Smart series labels

Automatically adjust series labels to avoid overlaps

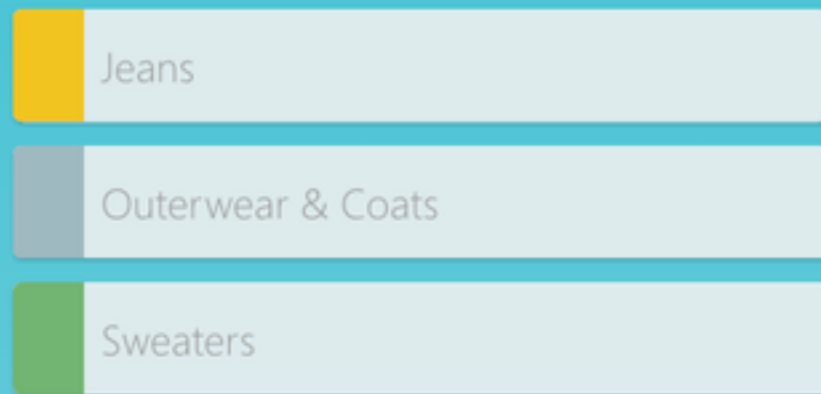

5 Center label

Customize the inner label to display totals, categories, or any metric

1 Donut chart – colors

Use conditional formatting to maintain consistent category colors across all visuals.

Apply individual colors to each series in a line chart for custom styling.

2 Donut chart – series

There are two techniques to manage a large number of series:

Reduce the number of focused series and display remaining series in a muted state.

Aggregate all remaining series into an “Other” category, using a custom color for distinction.

3 Donut chart – cards

Reduce the number of focused series and display remaining series in a muted state.

Aggregate all remaining series into an “Other” category, using a custom color for distinction.

4 Donut chart – labels

Series labels automatically take up only the space they need. You can control label density by setting the spacing between labels.

5 Donut chart – labels

Series labels are automatically truncated, and overlapping labels are removed.

Adjust labels to emphasize the most important information.

5 Donut chart – labels

Series labels are automatically truncated, and overlapping labels are removed.

Adjust labels to emphasize the most important information.
