Donut chart– highlights

1 Flexible colors
Apply conditional formatting or custom color palettes

2 Series management
Focus: display only the top N segments

3 Multiple cards
Render multiple line graphs in a single visual

4 Smart series labels
Automatically adjust series labels to avoid overlaps

5 Center label
Customize the inner label to display totals, categories, or any metric

Donut chart – colors

Use conditional formatting to maintain consistent category colors across all visuals.

- Jeans
- Outerwear & Coats
- Sweaters

Apply individual colors to each series in a line chart for custom styling.

2 # Donut chart – series

There are two techniques to manage a large number of series:

Reduce the number of focused series and display remaining series in a muted state.

Aggregate all remaining series into an "Other" category, using a custom color for distinction.

Donut chart – labels

4

Series labels automatically take up only the space they need. You can control label density by setting the spacing between labels.
